If you prefer American Muscle, there is a sensational collection of American automotive classics that include examples from the ever popular big three of GM, Ford and Chrysler, along with lesser known marques such as Studebaker and DeSoto.

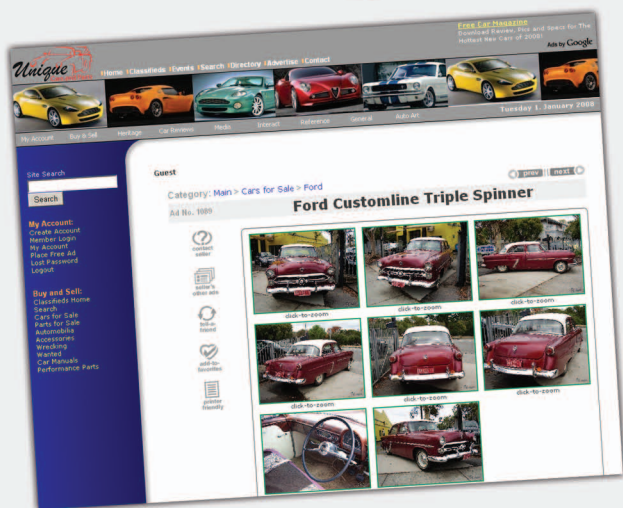

The ever popular British classics are also well represented, the art works covering a huge range of popular cars ranging from the Morris Minor through to the Aston Martin DB4 and Jaguar E-Type. Each piece has captured the soul and character of the car in intricate detail.

Other works include many European classics, along with motorcycles and trucks. All art-works are available on-line, and are ready to be framed, or can be supplied in a frame for an additional cost.
